GUT CHECK:
A PRESSING NEED FOR PARADIGM
CHANGES AROUND GUT HEALTH

AT THE OHIO STATE UNIVERSITY
women & philanthropy

614-292-2281 or ospane@osu.edu

RSVP: These events are complimentary, but pre-registration by
one week prior to the event is required for members and guests.
Antibiotic resistance, gut health and noncommunicable diseases have critical impact on life and health, agriculture production and food safety. Join us to learn how Ohio State researchers are turning their groundbreaking discoveries into real life practices across medicine, agriculture and food, and how the ongoing work and paradigm shift around gut health will alleviate disease burdens affecting everybody.

FEATURING:
Dr. Hua Wang, Professor, Department of Microbiology
Dr. Matthias Klein, Assistant Professor, Department of Food Science and Technology
