Dear Hiring Manager:

I am excited to apply to the Web Developer position at Limited Technologies in New York, New York. My background as a Web Developer, along with my education in Computer Science, have allowed me to attain a strong foundation of technical skills. In addition to my Web Development skills, I also possess a great eye for design, and this is what I believe separates me from the rest of the competition.

In addition to web technologies, I do have a passion for mobile technologies as well. I have worked on a few mobile side projects using Objective-C and Swift.

In addition to the skills I have acquired, and the extensive computer science education I have possess, I also have a great track record of success. I have been selected three times for the company trip for the top 10% of employees.

I am confident I can be a great addition to your company, and I would love the opportunity to discuss the opportunity with you further.
